

Stefinox

For cold sterile filtration of beer

Skids for sterile filtration of beer

- Standardised skids for easy installation
- Prefiltration – sterile filtration – media filtration all on one skid
- Maximum safety and cartridge lifetime
- Stand-alone skid or for integration

Technical data – capacity range for the skids

	Min flowrate skid in hl/h beer	Max flowrate skid in hl/h beer
STEFINOX 1	30	50
STEFINOX 2	50	80
STEFINOX 3	90	145
STEFINOX 4	120	190
STEFINOX 5	180	290
STEFINOX 6	240	390
STEFINOX 7	300	500

- Wide variety of cartridges for prefiltration, sterile filtration and water filtration.
- Membrane cartridges can be integrity tested for a maximum safety.
- Installation at end of filter cellar or prior to filling.
- Modular design, flowrates from 30–500 hl/h of beer.

Application

Cold sterile filtration before the filler is an alternative to flash pasteurizing. The Bucher Denwel skid allows a flexible and easy-to-integrate solution for small to medium size breweries (flowrates from 30–500 hl/h). This safe solution for a reliable product shelf life uses standard cartridges, and an integrity test of these membrane cartridges can be performed before each run.

Products

We develop and produce a wide range of specialized equipment and provide engineering solutions dedicated to help brewers to optimize their processes.

Combining experience and innovation we build safe and reliable Cold Blocks, supply brewing equipment such as Filtration, Beer recovery systems, Yeast plants, Water Deaeration, Blending, Carbonation, Dosing, Hard Seltzer units, Flash Pasteurization and CIP.

Services

We have a global presence. Our sales and service network is always available for you to provide consultancy, technical support and after sales service.
